DESCRIPTION

Kit for shower in a niche with sliding door

Stainless steel hardware kit for the design of a shower with access through a sliding door inside a niche.

This set includes uprights for the vertical adjustment of the fixed panels.

The handle matches the hardware.

Ball bearings offer continuous rolling comfort.

Note: The dimensions provided for the maximum height is calculated in relation to the use of uprights included in the set. However, for taller panels, you may use glass extrusions or fixtures (not included).

ADVANTAGES AND BENEFITS

- Features one sliding door and one fixed panel - High quality rollers ensure the door moves smoothly - Minimal components create an open look, displaying more glass and less hardware

IMPORTANT INFORMATION

For safety purposes, use tempered glass. The glass must be shaped according to the section plane provided in the box. The use of power tools during installation may damage the hinges and decorative hardware. This illustration is provided for visual reference only. Actual product may vary. Order hardware before starting the job. The manufacturer reserves the right to change product and information without notice. Always follow the instructions inside the package. Drawings and technical documents contain examples of hardware from different manufacturers. The customer may not in any case make a claim following the use of these documents. The Company disclaims any responsibility for the structural details related to a construction or project. Installation must always be done by qualified personnel. Make sure that the product is properly installed using suitable fixtures on the support material. Never exceed the maximum load or size recommended by the manufacturer. Never use a spray lubricant on this product. Maintenance: clean with a soft cloth and soap that is ammonia-free and nonabrasive.
