32 1/4 in 82 11/16 in

# Length

110 in 112 3/16 in

## **Cut Panel**

No Yes (cut 32 1/4" and 49")

# **Packaging format**

Sheet Sheet

#### **DESCRIPTION**

#### Antibacterial thermal-fused melamine board - Blues Texture

Finsa's antibacterial thermal-fused melamine boards are offered in a wide variety of designs for endless possibilities for any project. The collection includes a large selection of woodgrain finishes, linen patterns, stone textures, and soft neutral colors.

#### ADVANTAGES AND BENEFITS

Antibacterial finish: - The paper is treated with an integrated silver ion in the impregnation resin - Silver is naturally antibacterial - Bacteria that lands on a Finsa surface will naturally disintegrate at a 99% rate every 24 hours - Approved for hospitals and medical centers Complete assorted program: - Panels, edgebanding, laminates, cabinet doors, and cabinets The thermo-fused melamine accentuates the natural aspects of woodgrains, linens (textile), and neutral colors.
