

Henkel KS611 Hot Melt Adhesive

Finish/Color

Natural

White

DESCRIPTION

Hot melt adhesive to bond various edgebanding materials

AVAILABLE PRODUCTS

Product #	Finish/Color
HKS6112511	Natural
HKS6112530	White

TECHNICAL SPECIFICATIONS

Type	Granular
Adhesive for use with	Thick PVC and ABS edgebanding, Polyester, Melamine, Veneer edgebanding
Working Temperature	160 °C to 190 °C
Temperature resistance	80 °C
Weight	55 lb
Viscosity	25 000 - 40 000 cps
Brand	Henkel
Features	High Solids, Heavy-Duty, Water Resistant
Recommended Use	Edgebanding
Freeze/Thaw Stability	Unstable
Line speed	15 m/min
Base	EVA

DISCLAIMER

- Low viscosity - Low application temperature - Permits low machine speed - Clean machining - Very good wetting even on difficult edgebanding materials - Produces tight joints - High final bond strength - High glue mileage
